## Memorandum

To: Presiding Judge  
From: Cedrick E Draper  
CC: Deputy Clerk  
Case No: 4:17-CV-00042  
Re: Contested Review & Arrange a time to speak with the Presiding Judge on that review.  
(Plaintiff was informed of Court Appearance on July 11, 2017)

Under the amended information presented to defined further bias and theory of the stated claim, plaintiff request a contested review upon the order to proceed without pay. According to the specific information provided in the order, the original complaint is frivolous and malicious but it does state the intention of the plaintiff to include attachment information with original complaint. Plaintiff stated in the original complaint specific listings of areas where the workers of the defendant place unlawful actions.

With all due respect Honorable Judge from the attachment information, additional evidence, and connected sworn statements all information exhibit direct evidence with support of plaintiff party's typo error regarding corrected date of termination. All facts are occurrences within the factual bias of the plaintiff's stated complaint, pleadings, or defense.

Review is requested for detail examination of provided information because plaintiff feels no information included carries a suspicious or harmful act to reflect vague bias of stated claim or invoked violence on his behalf toward defendant. The last case was dismissed due to return payment on the filing fee not for unstated claim that is selected in the denial to proceed without pay order.
